

The Soap Box (7/9/02)

I realized the other day that I'm basically in 'waiting for Sopranos' mode. No basketball, football is still months away and baseball just bores me to tears. Can anyone honestly watch a 9 inning game these days? While 'The Shield' helped pass the time, HBO has us by the balls . . . with no sponsorship pressure they can wait as long as they want to put out new episodes. Which maybe why they are so good. But at least release Season 3 on DVD already . . . bastards.

Speaking of Baseball, I'm all for managers 'taking care' of their own, but Joe Torre picking Robin Ventura over Eric Chavez is fucking criminal. You should be embarrassed Joe.

While you weren't looking Freddie Prinze Jr. just turned in to Brendan Fraser.

I was driving to work today and this kid is just riding my ass, I mean all I saw was the roof of his car . . . for like 5 miles. Finally I let him pass and I swear to God it was Corey Haim, driving some piece of shit Honda. I was gonna bust his ass but it was the 'Lucas' Corey Haim, not the Fast Getaway Corey Haim. I always liked that Lucas.

Speaking of Fast Getaway . . . they made a Fast Getaway II. Fast Getaway II? Who watches this crap? Don't you always wonder how these shitty movies have sequels. I mean, was there such a public outcry for a sequel after the huge success of Fast Getaway?

Shit, next thing there will be a Pearl Harbor II . . . maybe Ben Affleck will die in this one. Hell maybe I'll go see it.

Speaking of Ben Affleck, could we please give this guys roles to someone cool like Vin Diesel.

I called a buddy of mine the other day, just to see how he was doing. He's a drug dealer. I mean, he has to keep interrupting the conversation to sell his drugs. And the whole time he's talking to me, he's telling me how he's got the world at his feet and convincing me how cool he is. I got off the phone and thought FUCK HIM. What a fucking loser. I have kids in this world and so does that piece of shit. So FUCK HIM and fuck anyone else that deals drugs. Get a fucking job! It's like those commercials about how if you buy drugs you add to terrorism and to these fucking assholes who like to fly planes into buildings and kill people who are just trying to go to work and pull and honest living.

Fuck them. Assholes.

I had more, but now I'm too riled up.

Until next time.
