

April 2009

You know you're horny when you are walking thru a store and a mannequin turns you on.

I see that Prison Break is back for it's fourth season. Can't they make a jail that can hold those two pricks?

You can tell a lot about the town or city you are in by the video games at the local pizza place. I was in Round Table the other day and they have this video game called Big Buck Hunter. Where you take shots at Bambi's dad with electronic rifles. And these redneck kids were pumping quarters into it like they were giving out NASCAR rides.

Yep, it was right next to the KKK Lynch Mob game where you accumulate 'hate' points by burning crosses and stringing up minorities until you become the Imperial Wizard.

I wanted to play Trailer Park Tornado, but it was out of order ...

If you ever get the chance, check out this old show on the Reality Channel called Man vs Beast 2 ... they have these four midgets racing against a team of camels.

I couldn't make this shit up ... it's fucking priceless.

Yes, I find midgets trying to run faster than camels very very funny.

Lately, on television, we have been blessed with a slew of 'anti-heroes'.

Some of my favorite shows, The Sopranos, The Shield, Rescue Me, Mad Men ... the lead characters are all very very flawed individuals.

Tony Soprano, Vic Mackey, Tommy Gavin ... and now Don Draper of Mad Men.

When I was growing up our heroes were very black and white. Good or bad.

Now we root for mobsters, murderers, crooks, junkies, liars and thieves.

Well at least we are entertained by them. And I can't figure out if we like them because they are the 'star' of the show, or if it is our human nature to root for the bad guy.

Why did we root for Butch Cassidy and the Sundance Kid?

They were bank robbers and killers. But we wanted them to make it.

I remember when The Shield first came on the air ... I called my dad who is an ex-cop and asked him if Vic Mackey was a good guy or a bad guy?

He said without hesitation ... bad guy. 'He killed a cop.'

Never crossed my mind, but here I was rooting for Vic and his crew.

Which also leads me to the fact that I applaud the writers of The Shield. They never had their stars break character. Those guys all basically got what they deserved. You kept waiting for the 'happy ending' or the guys to learn from their mistakes, or right their wrongs in some last act of heroic integrity ... but they never did. One was killed by his partner, one killed himself, one was locked in jail for life and Vic Mackey ended up being imprisoned with no bars.

But I like the flawed hero ... I like the reality of it all ... I truly believe that people are never as good as they seem to be or as bad as they seem to be. (of course there are exceptions)

Hell Tommy Gavin (Denis Leary, Rescue Me) ... alcohol, pills, recovery, anger, women, kids ... shit sounds real, real familiar ...

So, I don't know if he's a good guy a bad guy or just a real guy. But these are today's TV 'heroes'.

Where have you gone Andy Griffith?

Last month we talked about 'foul' sounding words ... ointment, etc ... but I was also thinking about nice sounding words that describe something horrible ...

acute

I heard a 'Make a Wish Foundation' ad and a mother was talking about her daughter having acute liver failure.

Such a pleasant sounding word with such a horrible meaning ...

And another thing I talked about last month ... my \$40 co-pay ... well this month I decided to go get a full physical and my doctor, who happens to be a lady, ... tells me to drop my pants and cough ...

So looking back ... I paid a woman \$40 bucks to touch my junk ...

Hmm, not really what I expected ...

Now that we have a black president, a woman president can't be too far off, which made me wonder:

What will her husband be?

The First Man?

The First Gentleman?

I like JellyBellys ... and at Easter, there seems to be a lot of them around, but you know what's fucked about JellyBellys ... you grab that handful and start popping them in your mouth and there is always that one bean that tastes like ass that ruins the whole lot for you.

Look, it's cool you have a wild variety, but do we really need flavors like beef stew, corn on the cobb or homeless guy's ass?

I was watching a Hogan's Heroes marathon and now after seeing the movie Auto Focus, every time there is a hot fraulein on the show all I can think is 'I wonder if Bob Crane filmed himself banging that chick?'

If you have no idea what I am talking about check out Auto Focus with Greg Kinnear ...

After that marathon a couple of WKRP in Cincinnati's were on. Great show, short run ... but god damn Andy Travis wears the tightest pants in television history.

It's obscene. How the fuck did that even make it on TV?

I mean, you can't even watch the Bret Michael's Slut Show without half of the girls being 'blurred' out so not to be too revealing, but there is Andy Travis' wang for the world to see back in the early 80's.

Does that make me queer?

Well I am getting turned on by mannequins and paying a woman \$40 to touch the side of my nuts ...

Hmmmmm, moving on

How come you always hear about criminals trying to get across the border into Mexico? How come they never go to Canada?

Shit, if I am ever on the run, I'm heading North ... I'll be a canuck ...

Can somebody please explain to me why Kenny Stabler is NOT in the Hall of Fame?

You know, this whole Jay Cutler, Denver Broncos bitch fight really irked me. What a pussy. Isn't your quarterback supposed to be mentally tough? The guy who won't get rattled when things are on the line? Cutler gets upset because the Broncos thought about trading him? So he gets them back by pouting and not coming to mini-camp? What, holding your breath didn't get their attention Jay?

Montana, Elway, Namath ... Jay Cutler? ... what the fuck happened to men?

Pretty soon guys like fucking Jay Cutler and Vince Young will be in the injured list with 'hurt feelings' or as my friend Eric would say ... a swollen hymen.

Your quarterback is supposed to be the leader ... the general ... the one who rallies the troops, the guy you want next to you in a street fight or a barroom brawl someone like ...

Kenny Stabler.

Disturbing commercial time ... two young ladies talking about sex, condoms, vibrators ... etc. Fine.

But old lady listening in, tells them where she got HER vibrator?!?

A vibrator made by Trojan ... little fingertip pleasure dealio ... do we really need to have that fucking visual? Now I am haunted of visions of this old lady pleasuring herself.

Who the fuck is putting these things on the air?!? ... again, too many channels, too much air time to fill.

And lastly ...

Here is why I write this column ... a 30 second commercial *for* ...

The Hyundai Assurance

And we're off ... hmmm, Hyundai Assurance? ... ASSurance ...

Wow, who thought to put ASS on the back of a car?

There was the Chrysler K-Car and now we have the Hyundai ASS-Car.

Well, it would be an ASS car but you won't get much ASS driving a Hyundai.

They should have made the ASS car a Maserati.

But then again if you drive a Maserati, you wouldn't need it to say ASS on it ...

You would just get ASS.

Hmmm ... damn my brain spins on the most mundane wacko shit ...

30 second commercial ...

I wonder if Tommy Gavin has the same problem?
